

ATARI® PC

NOTE TO PURCHASER

Your Atari PC can accept an optional numeric data processor (Intel® 8087 chip) and four optional 64-kilobyte RAM chips (for a system total of 640 kilobytes).

You can install the numeric data processor yourself by following the instructions in **Appendix B** of the **Atari PC Owner's Manual**.

However, at this time you cannot install the optional RAM chips yourself. For RAM chip installation, take your Atari PC to an authorized Atari dealer or service center. (Disregard the installation information in **Appendix B** of the **Atari PC Owner's Manual**.)
